

## Millinery Opening!

A Lady carries herself better, wears a more contented expression, when on the street or at a social function, if she is conscious that her HAT is TRIMMED in the LATEST STYLE. The HAT is the most prominent article in a lady's costume. It is always noticed on the street, at the church or at the concert. Hence, it is best to look well before you buy. If you are thinking of getting a Spring Hat, visit the.....

Mr. Reber will have charge of the Drug department, and Mr. Yerges will have in charge the jewelry department. The change will be made in a few days.

—It is whispered that we had "Stock Sales" in Logan last Saturday. The matter of having sales was carefully kept from the public, no advertisement having been given the readers of the Sentinel. It is confidentially told that one horse and two mules constituted the stock on sale. Logan is not to be laughed at for this back alley enterprise.

—Rev. Weisinger, formerly of Stratsville, one of Columbus, was in our city last Monday, contracting with A. Magoun for brick for the new church he has charge of building. The church will be very nearly in style and all its appointments like the Catholic church at Logan. It may be mentioned that Logan has been the pioneer in using the rock faced fire brick for the church edifices as of course we long have been giving an example of piety to the people, who occupy the churches.

—O.C.R. township Democratic ticket was elected at the primary. The nomination is equivalent to an election.

—The candidates are all good Democrats, all capable men, and all will be elected. There is no politics in Falls township. It is all democratic.

—A number of our people went to Columbus Tuesday to hear Fauny Davenport at the Great Southern.

—Mr. John Wolf, one of the old reliable farmers of near Junction city is visiting relatives in Logan this week, and meeting a hearty welcome from his many friends.

—Mrs. W. H. Martin wishes to say to the public, that her daughter Blanche, and triomer, Miss Harrold, have returned from Columbus with a fine lot of trimmed hats and are now ready for the Spring trade. All are invited to call at the opening, Friday and Saturday, March 18 and 19th.

—We present elsewhere this week the full text of the school law just passed. It is an amendment, but not much of an improvement on the old law, but it is the law and we must make the most of it. Mr. Cox did not approve the measure in all its features.

—Will Fresh, who has been traveling in Mexico the last month, left Vera Cruz on Monday in company with Fowler, the war correspondence, of the New York World and Hocking Sentinel for Havana. Correspondence from the girls left behind, will reach Will at Consul Gen. Lee's office. Unless he is captured by the Black eyed Seniores, who have an eye for beauty and Will's good looks are against him. However we hope he will have a continued pleasant trip, and a safe return.

—The lecture of Prof. Copeland on last Monday at Opera House, on Snobs and Snobbery, was very entertaining. The lecturer has a good voice, elegant gestures, and his subject well in hand. It was an off hand, up to date discourse and was very well received. He is a man of constant travel and over a wide scope, we infer from his discourse. The various characters who he presents are from life, and it is not snobbish in him to say that when he saw one he holds up to contempt he was there himself. His lectures was above the general average of the Lyceum Stock Company.

—All good housekeepers take pride in baking nice bread. Miss Du Quay, who for the past three weeks has been at the Pure Food exhibit in Columbus, will demonstrate at

**A.C. Tipton's** Store, East Main street, Logan, O.

## Friday and Saturday

of this week. The public is cordially invited to call and get pointers on baking bread, biscuit, gems, etc. and to sample some of Miss Du Quay's baking from Ceresota Spring wheat flour.

The "Dumb Dutchman" is the smart talk of the loafer on the street corner when Shively is spoken of. The "dumb Dutch" are men who work, are men who are honest, are men who make an honest living by honest work. The Lude, who parts his hair as a girl, the dead beat who rolls his hair on his forehead like a Durham, laugh at the "Dumb Dutch". The town of Logan has much more regard for an old citizen like Shively who works and minds his own business, than it has for the cigarette smoking dude, who dead beats off somebody and never works at all. There are a good many people in Logan, regardless of politics, who think that the old "Dumb Dutchman" for once should have a chance.

"POLE" ACKER is a Democrat, fairly nominated by his party. He has no strings to him. His record in public service is bright and clean. His character as a man of our community is as spotless as that of any who have been born and bred in Logan. No faction, no gang, no scheme runs him. He is a Democrat, he is an honest man, he is a capable candidate. The people of Logan will elect him.

Our township Democratic ticket was elected at the primary. The nomination is equivalent to an election.

The candidates are all good Democrats, all capable men, and all will be elected. There is no politics in Falls township. It is all democratic.

David Ward, the lucky gold miner, who brought back the news of a rich find of gold on the American side of Alaska, and who say that the rich next spring will be far down the Yukon on the American side spent three years prospecting in Alaska, and in that time only received seven letters from home. Since his return he has had more than that many thousands of letters from would-be argonauts in three months. He is now in Philadelphia, Pa., and tries to answer every inquiry concerning the Far North, its perils, rigors of climate and wonderful riches. His practical experience makes his advice highly valuable, and anyone interested in Alaska should avail themselves of his knowledge by writing to him.

Last week our government bought two battle ships, at a cost of five million dollars from England, which had been built by that government for Brazil. That is where the Tariff protects, protects England.

There are no Spaniards, nor Cubans celebrating today. But the Irish are. Let us annex or buy or conquer Ireland, and let the barbarians of the Sandwich and the mongrels of Cuba settle their affairs. Let us look to the mother home of many of our citizens. Let us look after Ireland.

The Hocking and Ohio Valley Editorial Association meets in Columbus next Thursday to arrange among other things, the summer excursion. These excursions have been of much concern to a very large "staff" on the SENTINEL. We have "outed" them over railroads to all the important places of interest and located them at best hotels free, because of the Sentinel staff. Some of our best beloved are dead; some of our most served have deserted. Still the Old Guard and new recruits are with us for the next excursion. Several places are under consideration for the summer trip. Mexico, Canada, Cuba and Havana. The Sentinel is in favor of going to Ireland.

With the barbarians of Hawaii we have no relations; with the Spaniard or Cuban no kin; Mexico and Canada have no feeling in common. We prefer going to Ireland, and on the spot where the gibbet of Emmet stood, start a newspaper, his monument.

The Commodore will have good Staff support.

Last week the President wrinkled his brow, the Cabinet looked solemn. The war seemed on us. Stocks and Bonds went down in price. This week the President smiles and Gen. Grosvonor says there is no occasion for war: Stocks and Bonds go up.

The latest plan, it is said wh'ol Republican management proposes, is to buy Cuba. That, it is said will settle all trouble. It is a great scheme, surely. There are not five hundred Spaniards or Cuban citizens in our country. What do we want of them since they don't care for our association in business or politics. When it comes to buying, let's buy Ireland.

Those afflicted with Horn Eyes, Granulated Eyes, or with Near Sight, Cross Eyes, or who are threatened with Blindness, should consult us. We treat successfully cases of difficult Horns, and deafness, together with nasal catarrhs, asthma and the various ailments of the Throat. Consultation Free and Invited.

This cut represents the various axes of Glasses. Some eyes require the glass to be set in the frame at 25 degrees for one eye, while the other eye requires 10, 20, 30, 40, 50, 60, 70 or 80 degrees.

If you are using or contemplating the use of these artificial aids, it is of the highest importance that their selection should be left to one who thoroughly understands the anatomy of the eye and the philosophy of vision, and one who successfully treats all defects and diseases of this precious organ. All reputable authorities say that more eyes are lost and injured by the use of poor and imperfectly adjusted glasses than from all other causes combined. These lamentable effects can only be averted by leaving the selection of Spectacles to a skilled and experienced Oculist only.

It is really a more difficult and taxing than the removal of an eye's cataract, or the straightening of crookedness, that it can be seen how surgical haphazard it is to supply one's self from the counter of a mere optician or dealer in optical goods, and to attempt to furnish their eyes and furnish Spectacles on a haphazard, ACQUAINTANCE basis, exactly adapted for the peculiar need of the wearer, and accompanying same with WRITING BLANKS to give satisfaction. Prices extreme. In moderate. Now lenses set in your old frames. Artificial Eyes inserted to look natural. If you cannot call, send for the Doctor's valuable Book. Address: DR.
